

ABOUT WINDEMULLER

Partners in Your Success

From sophisticated security systems for the government, to controls and automated processes for environmental cleanups or responding to emergencies on an industrial site, Windemuller is responsive and innovative. We offer a 24-hour service department that is available 365 days a year.

At its heart, Windemuller is about our people and the people we serve. We are more than 200 individuals strong and serve thousands of customers of all sizes within industrial, government, municipal, and commercial entities.

Windemuller provides advanced technical and design services throughout Michigan and beyond. The company was established in 1954 as an electrical contractor and has since expanded into automation, communications and IT, construction, electrical services, outdoor utilities, and renewable energy. Within those categories, we have worked on projects relating to Healthcare, Data Centers, Oil and Gas, Pharmaceuticals, Industrial Manufacturing, Life Sciences, Agricultural, and Public Works.

We Have You Covered 24/7

Windemuller has seven Michigan locations: Grand Rapids, Traverse City, Midland, Big Rapids, Whitehall, Charlevoix and Kalamazoo. However, we work throughout the country - meeting customers wherever we are needed!
